

City of Cheney

P.O. Box I, 131 N. Main, Cheney, KS 67025-0997 (316)-542-3622 Fax (316)-542-0185

The United States Environmental Protection Agency, in conjunction with the Kansas Department of Health and Environment, is requiring all Public Water systems to conduct a Lead Service Line Inventory of both the public and privately owned water services within our jurisdiction. We would like to stress to you that the City of Cheney currently, and in the past, has had no lead issues within our water supply system. We are sending out this survey in an effort to obtain information about the privately owned (customer side) service lines within the system. Please fill out this survey to the best of your knowledge. This information is crucial for us to complete our system's material evaluation. We greatly appreciate the members of our community taking the time to fill out this survey. Please return with your utility bill payment, drop off at City Hall, or fill out form on our website www.cheneyks.org. If you have any questions, contact Cheney Maintenance at 316-542-3815. **PLEASE RETURN BY MAY 31, 2023. THANK YOU.**

1. Name: _____ Date: _____

Service Address: _____ Telephone Number: _____

2. What is your water **service line** material? Your water service line is the line running from the water meter into your house (often found entering house through basement wall, slab floor, or crawlspace.
